TENNIS COURT

ST. LUKE'S HOSPITAL SCHOOL OF NURSING.

“Nursing is an art, and, if it is to be made an art it requires as exclusive a devotion, as hard a preparation, as any painter's or sculptor's work; for what is the having to do with dead canvas or cold marble, compared with having to do with the living body—the temple of God's spirit?”

Probably no other profession presents so wide a field for the development of character and talents as modern nursing. The term nursing, originally embracing little but the personal care of the sick, now includes much that contributes to recovery, and also an ever-increasing number of public and social activities. Education for nursing prepares the student for many avenues of service, such as director of a training school, instructor or supervisor in one of the various departments of a hospital; also for the ever-widening field of public health work, including school nursing, rural and town nursing, tuberculosis and industrial nursing, and hospital social service. A nurse is limited only by her own limitations; for according to her ability will be her opportunity.

The nursing profession, with its intimate contact with the sick and its wonderful opportunity for service to humanity, calls for special qualifications in its students. They should be women who are strong mentally, morally, and physically. They must be cultured, sympathetic, and tactful, possessing a strength that springs from knowledge, and a magnanimity that springs from strength.

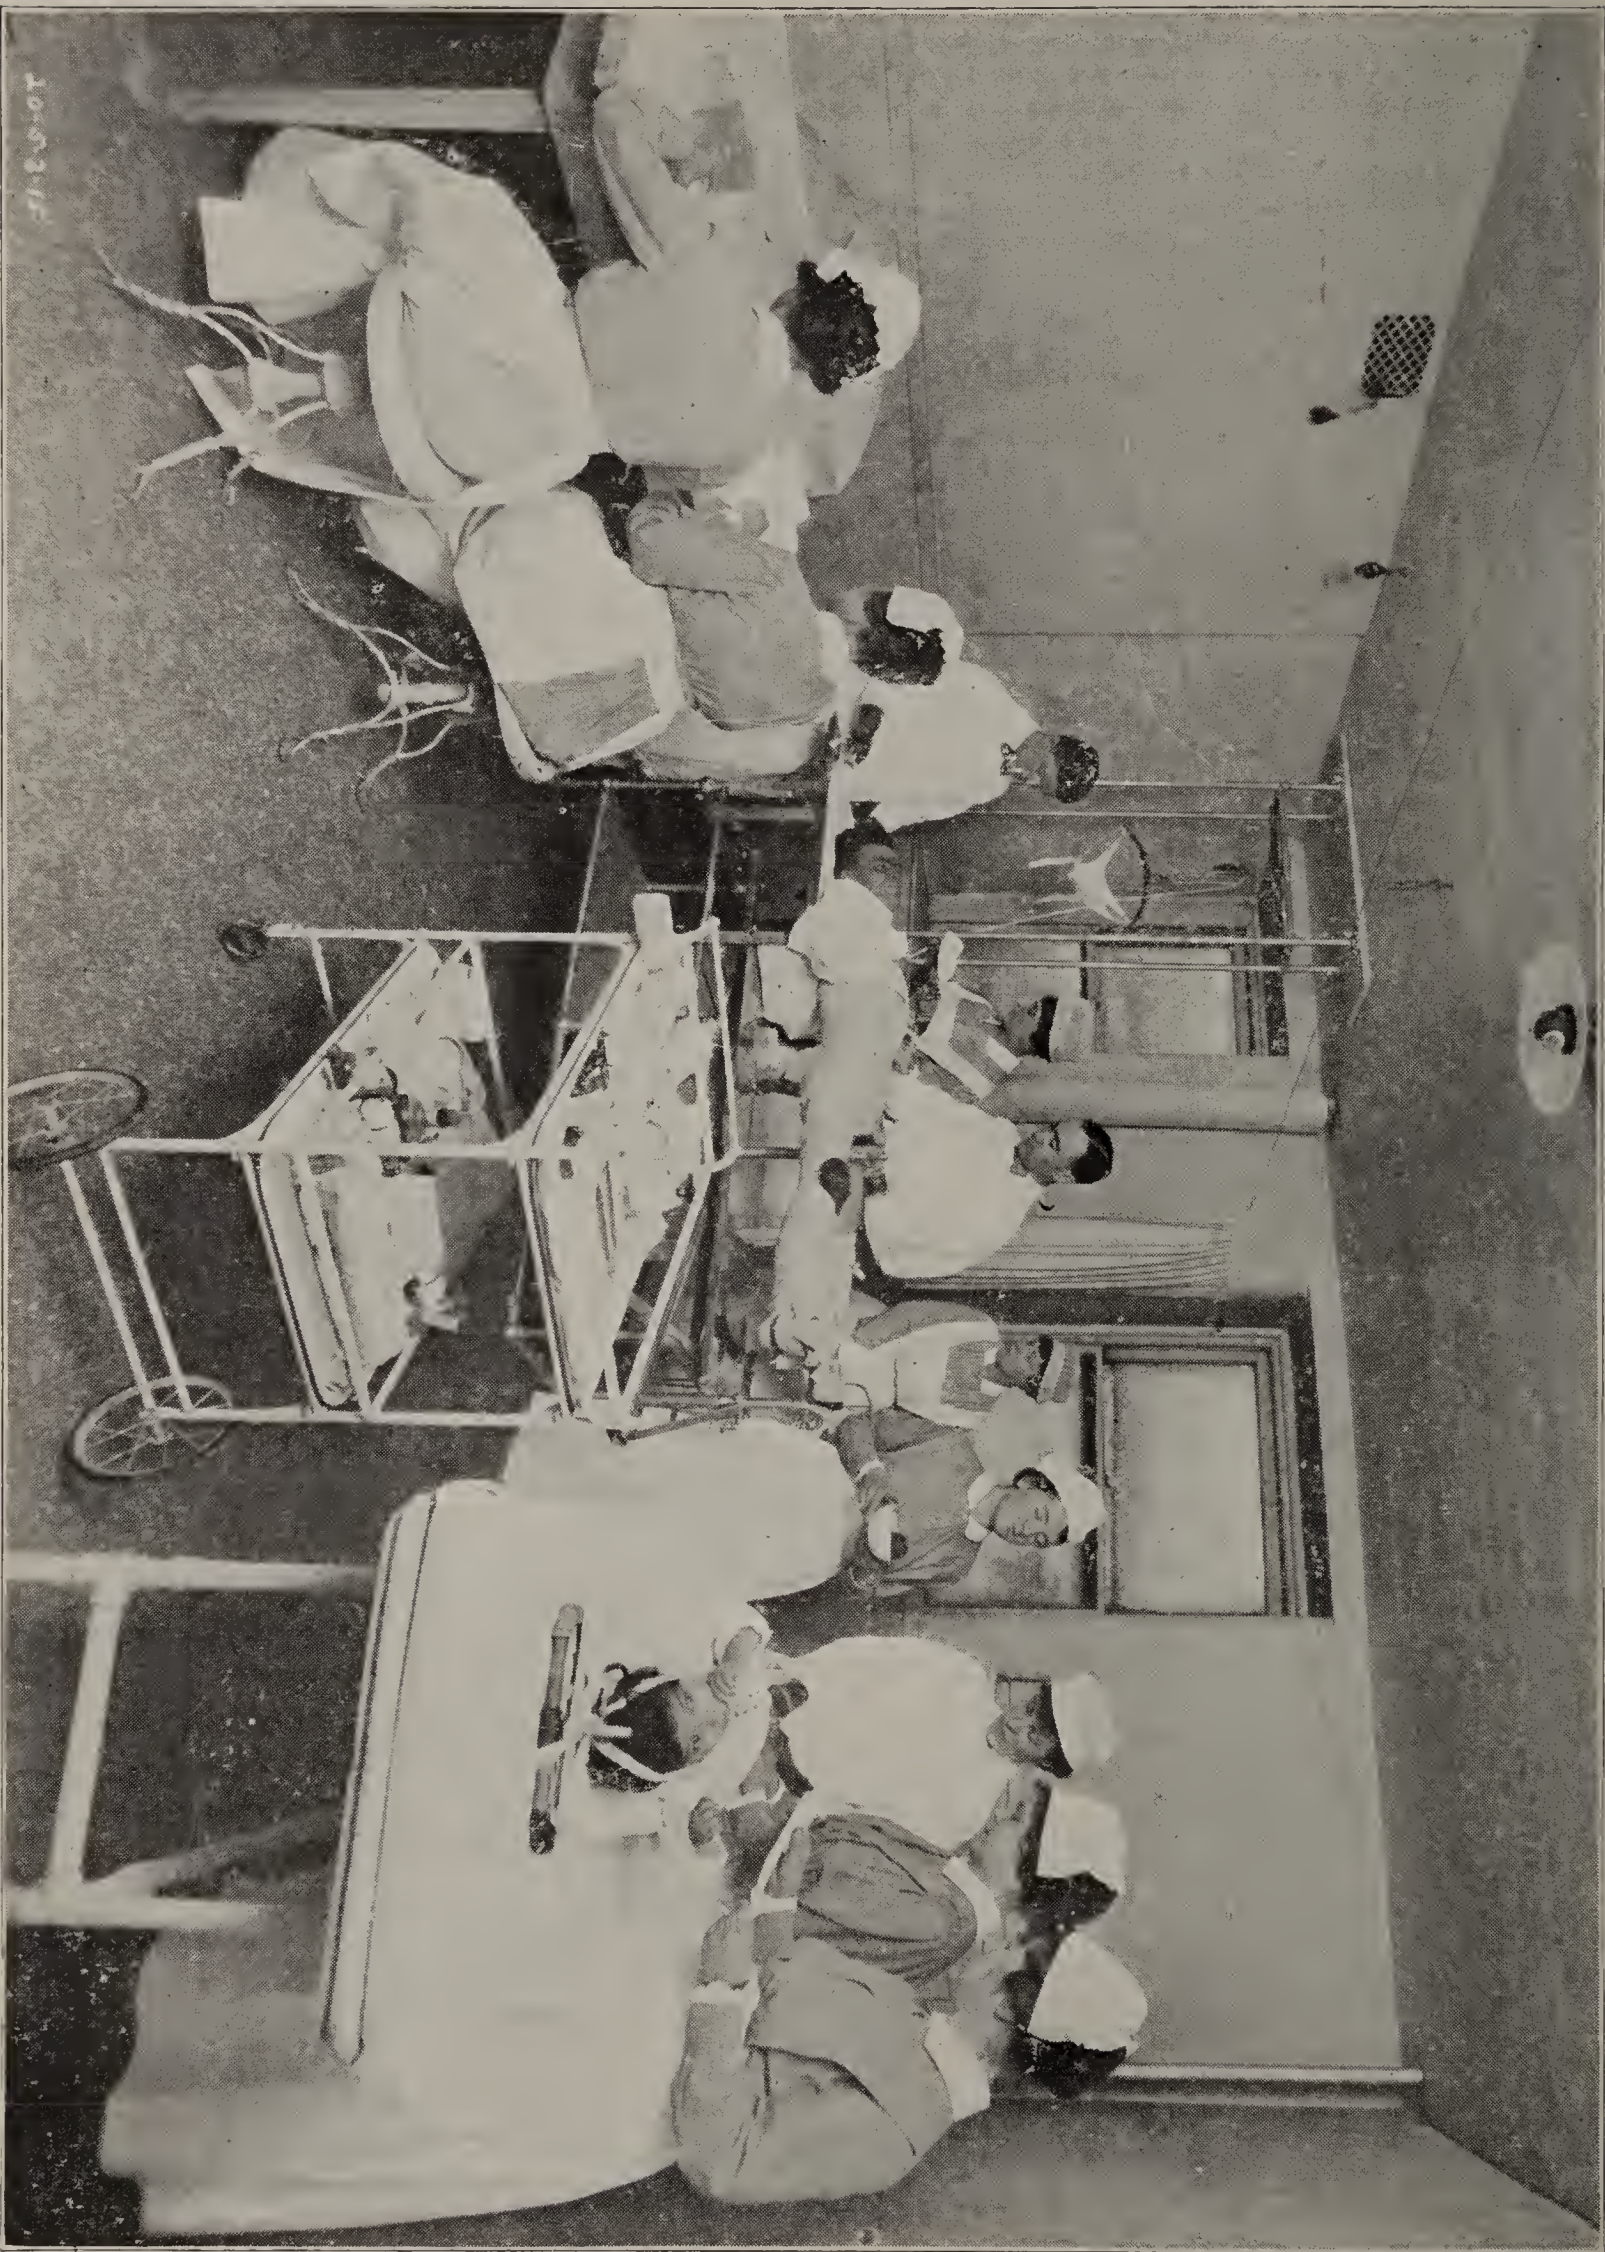

St. Luke's Hospital, which was established in 1864, had for many years a precedence in this country which

was attested by the number of students who came to the training school from Canada and abroad, because of its high standard of service and its relative size. In later years, though many have equaled the equipment of St. Luke's, few have attained her traditions. The original building, which is still in use, stands on Indiana Avenue, between Fourteenth and Fifteenth streets. To this have been added from time to time other buildings, including the "Stickney House" a nurses' home. In 1908 the splendidly equipped Smith Memorial Building was erected on Michigan Avenue, and at the present time plans are completed for the erection of a structure which will surpass all these in size and stateliness. It will stand on Indiana Avenue, overlooking the lake, thus combining a convenience to town with apparent remoteness, an incomparable view, and fresh air. In this building, with its great advantages, the nurses' home will be located.

St. Luke's is one of the few hospitals in Chicago that renders to the public the double service of a private institution where the advantage of the most efficient and luxurious medical service may be enjoyed and at the same time expert care dispensed free of charge to those unable to pay.

The capacity of the hospital, including the private pavilion, is about four hundred. Approximately ten thousand patients are treated annually by the following services:

Medical	Surgical
Gynecological	Obstetrical
Ophthalmological	Rhinological
Otological	Laryngological
Oral Surgical	Orthopedic
Dermatological	Neurological

ORTHOPAEDIC ROOM

Pediatric.

Such contagious cases as develop in the hospital are treated, thereby offering a limited experience in this class of nursing.

The School of Nursing, incorporated in 1885, is an integral part of the hospital, governed by the same Board of Trustees as direct the hospital proper.

The regular course covers a period of three years, including three months' vacation. It is divided into four periods—preparatory, junior, intermediate, and senior.

The preparatory term is four months, during which time the student spends half of the day in theory and half in practice. At the satisfactory completion of this period, she is given the uniform of the School. After the expiration of twelve months, the student is entitled to wear the Blue Cross, the insignia of the School, embroidered on her left sleeve. The Blue Cross is worn by the nurses after graduation, emphasizing the spiritual co-operation in their ministrations to the sick and suffering.

During the senior period, students are given executive experience in the management of surgical and medical wards and floors, and in the Obstetrics, Surgery, X-Ray, Social Service, Public Health, Occupational Therapy, Orthopedics, Eye and Ear, Nose and Throat and Pediatrics. This is to a great extent elective with a view of special preparation for whichever branch of the nursing profession the student chooses to enter.

The Senior Nurses' residence, Stickney House, provides individual sleeping rooms, and sitting rooms reserved for the use of the pupils, lecture and demon-

stration rooms equipped for teaching purposes, and excellent reference Library with the leading current magazines on file, and newer works of fiction. Laundry and Pressing Room where nurses may care for dainty articles which cannot be sent to the General Laundry. As far as possible, every consideration has been given for the comfort and welfare of the student. The Junior Nurses are provided for in the Saranac House. Both buildings are connected with the Hospital by corridors, thus affording the nurses an entrance on Michigan Boulevard. Within a few minutes' walk are Grant Park and the center of the business section of the city fronting Lake Michigan.

Admission:

Classes are formed in February and October, but students are admitted throughout the year whenever there is a vacancy. Candidates for admission must be between twenty and thirty-five years of age, in good health, and must have a high school education or its equivalent. When making application, it is necessary to forward the following documents:

1. The application blank filled out in all its details.
2. Statements from Physician that applicant is in good health, free from organic defect, and has been vaccinated within the year.
3. Statements from Dentist that applicant's teeth are in good condition.
4. Testimonial as to character from Rector or Pastor of Church attended by applicant, and one other.

5. Education credentials.

Wherever possible, it is desirable that candidate make appointment with Director of the Training School for a personal interview.

Schedule:

The schedule of a day on hospital duty is planned on an eight-hour basis, with the exception of Sunday and one day weekly, when students are off duty half of the day.

Religion:

While St. Luke's Hospital is an Episcopalian institution, the question of creed never enters into its work, either as to patients or the selection of students in the Training School, but all students are required to attend daily service in the Chapel, conducted by Resident Chaplain.

Expenses:

No charges are made for tuition. Students receive board, lodging and laundry from date of entrance, but are required to purchase their own text books, caps and instruments. During the preparatory term, students provide their own uniforms and aprons, after which the school uniform is supplied. The necessary income for a nurse in training depends upon her own personal tastes and requirements.

Vacation:

Students are allowed a yearly vacation of one month.

Illness:

When ill, students are cared for by the Hospital and treated professionally by a member of the Medical Staff. Any time which may be lost, other than vacations, must be made up at the end of the term.

Graduation:

The diploma of the School qualifies the student for State Examination as Registered Nurse, and is awarded to those who have satisfactorily completed their full term of training. Graduating exercises are held in the Episcopal Church, with reception the following evening in the Nurses' Home. The annual Alumnae tea is given in the afternoon to welcome the members of the graduating class.
